

About Us

Able Investigation Services has specialised in both private and commercial operations since 1993. We have an established and ever growing network of investigators, detectives and researchers located throughout the world, enabling us to offer our clients a fast, efficient and reliable service to the highest professional standards on a truly worldwide basis. Our clients include the legal profession, for whom we work extensively; business, commerce and private individuals, each case being handled with precision, discretion and tact.

In an increasingly litigious world repossessions and process serving represents an increasing proportion of the work we undertake, but surveillance and general investigative work is still what underpins our business, and our ability to perform this work nationally and internationally with excellence is increasingly what differentiates us from other companies.

Wherever the need and whatever the task, AIS is able to respond, offering everything from advice to immediate action, and all at a competitive price. Our intention is always to surpass expectation. Try us.

Process Serving

With years of experience in handling legal process documents, AIS is a company you can trust to deliver. Once appointed, our process servers and agents will ensure that your legal documents are served and returned to you on time to any location, with proof of service, as appropriate. All our document handlers are kept fully up to date with relevant court procedures and the types of services required for each document.

Special arrangements can be made for same day and the express delivery of time sensitive documents. Collections from Courts or company premises can be arranged. Typically, our team can serve any legal document within 24 hours of receipt, and provide proof of service within 48 hours. We will also accommodate any special instructions relating to individual document handling to ensure total client satisfaction.

Able Investigation Services

Professionalism with Reliability

Documents can include Statutory Demands, Bankruptcy Petitions, Summons/Claim Forms, Orders to attend Court and Suspended Committal Orders, Divorce Petitions & Family Proceedings, including Seek & Find Orders, Child Proceedings, Witness Summons and injunctions.

Repossessions

AIS is one of the few firms in the country able to offer a comprehensive vehicle search and recovery service. We operate through a national network of agents and enforcement officers on behalf of a range of finance providers, enjoying an overall success rate of over 85%.

The process of all assignments is tracked and monitored at Able Investigations' head office, with clients being kept informed at every stage. However complex the case, our enforcement officers will track debtors down to their last known address. Trace and location services can also be put into action if the individuals concerned have moved on.

Once the debtor has been located, our agents can either negotiate the recovery of the assets, or recover the vehicle. In addition to vehicle repossessions, Able's enforcement officers can also recover all types of Plant and IT equipment. As most of our agents are Certified Enforcement Officers, we can also offer the recovery of commercial rent and commercial property.

"We are delighted to have found a firm of investigators and process servers, that shares our professional approach and also puts customer service at the top of their priority list. We won't use another firm of investigators or process servers while we continue to receive the first class service that Able offers."
