Dear Sirs

I have used Stephen Wood of Able Investigations on many occasions over recent years.

I find his manner to be exceptionally courteous and professional. He is extremely diligent in carrying out instructions and subsequently following up with prompt provision of detailed records and confirmation.

I find Stephen Wood to be an invaluable ally when faced with strict time limits and the need to ensure that very specific criteria relating to service of documents have been met. I would recommend Stephen Wood wholeheartedly to anyone requiring a professional, prompt and reliable process server.

Regards

Neil Denny
